

SCIENTIFIC PROGRAM

2nd International Conference on
**Dementia and
Dementia Care**

November 10-11, 2022 | Paris, France

Day 1- November 10, 2022

Introduction: 09:45 - 10:00

KEYNOTE

10:00 - 10:40 **Title: Hyperbaric oxygen therapy alleviates vascular dysfunction and amyloid burden in an Alzheimer's disease mouse model and in elderly patients**

Uri Ashery, Tel Aviv University, Israel

PHOTO SESSION (10:40-11:00)

Oral Presentation

11:00-11:30 **Title: Low dose gabapentin for behavioral symptoms in dementia with lewy bodies. Case series, brief review of pharmacology and a hypothesis**

Gregory Goldenberg, New York Presbyterian Brooklyn Methodist Hospital, USA

11:30 - 12:00 **Title: Optimization of anesthesia depth for prevention of postoperative dementia**

Yodying Punjasawadwong, Chiang Mai University, Thailand

12:00 - 12:30 **Title: Playing with fire- neuroimmune modulation in Alzheimer's disease**

Bradlee Heckmann, USF Health Neuroscience Institute, USA

12:30-13:00 **Title: A Friend and a foe: 50 Years of the apolipoprotein E research trail**

David Levy, Meir Medical Center, Israel

Lunch (13:00 -14:00)

14:00 - 14:30 **Title: Medical care for seniors from the carers' point of view**

Lilia Rosenfeld, RAMBAM Medical Centre in Haifa, Israel

14:30-15:00 **Title: Serum 25 – hydroxyvitamin D (25 – OH – D) levels by RIA radioimmunoassay method and its role in the monitoring of patients with Parkinson's syndrome**

Haris Varellas, Democritus University of Thrace, Greece

15:00-15:30 **Title: The impact of memory retention in seniors when an item they hold dear is shared with others**

Giovanni DeLaRosa, Harvard University Secondary School Program, USA

Coffee Break (15:30-15:40)

15:40-16:10 **Title: Movement of Silence**

Anysia Koukouthaki, Aristotle University of Thessaloniki Law School, Greece

16:10-16:40 **Title: Neurology case report: Rapidly progressive dementia and extrapyramidal symptoms as the first presentation of leptomenigeal carcinomatosis**

Dinah Alasmari, King Abdulaziz Medical City, Saudi Arabia

16:40-17:10 **Title: Neurobiology of the circadian clock: Metabolism control & implications for Alzheimer's disease**

Antonio Manuel Carvalho da Silva, University of Michigan, USA

17:10-17:40	Title: Implications of a dementia caregiver intervention model
	Carol Manning , University of Virginia, USA
Day 02: November 11, 2022	
Video Presentations	
10:00 -10:30	Title: Cost benefit analysis and dementia: New Interventions
	Robert Brent , Fordham University, USA
10:30 -11:00	Title: Curing dementia: Novel approaches, innovative care
	Michael Fossel , Telocyte, USA
11:00-11:30	Title: Dementia among early signal detections of mental disorders with statins
	Maria-Isabel Jimenez-Serrania , Miguel de Cervantes European University, Spain
11:30-12:00	Title: Driving precision medicine in Alzheimer's disease with high resolution patient stratification
	Steve Gardner , Precision Life, United Kingdom
12:00-12:30	Title:A comparative study of oral health in Chinese elderly with Alzheimer's disease, diabetes mellitus and coronary artery disease
	Bing Yang , Stomatological Hospital of Chongqing Medical University, China
12:30-13:00	Title: Imaging in the Investigation of Dementia and Perioperative Neurocognitive Dysfunction
	M Scott Vandiver , University of California at Los Angeles, USA
Lunch: 13:00-14:00	
14:00-14:30	Title: Health and illness in the midst of Covid-19: An emotional relationship
	Santiago Restrepo , Corporación Universitaria Americana, Colombia
14:30-15:00	Title: Evaluation of cognitive decline in seniors using a single-channel EEG with auditory cognitive assessment
	Lior Molcho , Neurosteer Inc, Israel
15:00-15:10	Title: Structuring of an interactive guide on recommendations for safe and early dental care to patients with dementia
	Érica Paula Barbosa , State University of Health Sciences of Alagoas, Brazil
15:10-15:30	Title: Subjective Time Perception, Dopamine Signaling, and Parkinsonian Slowness
	Edison Miyawaki , Harvard Medical School, USA
15:30-16:00	Title: AI to Explore the Effectiveness of Collage Art-therapy for Patients with Dementia
	Mahboobeh Parsapoor , CRIM, Canada
16:00-16:30	Title: Pallidotomy associated to thalamotomy for Parkinson's disease treatment: Case report
	Daniel Oliveira Zago , Hospital Premium, Brazil
Closing Ceremony
